Saturday, April 19, 1884.

Monnison, of Illinois, and Mitchell, of Connecticut, is the latest Democratic slate. THE surest evidence that spring is here is the flaming circus posters on the fences and bulletin boards.

THERE is great need in this District for wisely-framed mechanics' lien law. It ought to be passed by the present session.

Wirm two first-class baseball grounds and two good clubs Washington is sure to hold her own in baseball as in everything else. In the selection of steam railway routes

through the city property-holders should be consulted and heard as well as the railroad Ir is fit that we should have a grand cele-

bration upon the completion of the Washington Monument. It is time to begin the arrangements now. It should be done on a scale commensurate with the event. OUR neighbor, the Post, is not a reliable

prophet. It has fixed the date two or three times for the reduction of its eight-page contemporary to four pages. The Republican is still issued in eight-page form. IT LOOKS now as if Bill Shaffer would

succeed in excluding his company from the benefits of the proposed Postal Telegraph bill. He has already let the other companies in. Bill is a great manager.

MR. WHITE, of Kentucky, is never happy unless he is in a fight. His exhibition yes-terday did not cubance his reputation for good sense. The country can get along for a week or so without hearing from White.

"THE quiet Gresham may possibly turn cut to be Arthur's dark horse," says the Philadelphia Chronicle-Herald. The Republicans can go a long way and fare a great deal worse than in nominating Gres-

Our merchants should be kept busy this fine weather. Their stores are filled with beautiful goods. Our advertising columns always tell you where to get what you want. The man who does not advertise evidently does not want patronage. PHILADELPHIA is occupied at present in

trying to determine whether Forepaugh's white elephant is artificially colored or not. Barnum has deposited \$20,000 in one of the banks, which he offers to devote to charity if Forepaugh proves his elephant white. Wifar a happy family the prosecution in the Star-Route trials were to be sure! Now

comes Brewster and places the blame on MacVeagh and says Bliss is no gentleman. The country is likely after a while to find out the true inwardness of the trials and where its money went. IT SEEMS a pity' that so enterprising a citizen as Frank Ward should have so hard a fight to maintain his business. Frank

has shown as much business enterprise and done as much for Washington as any man, and he should be encouraged instead of being crushed. The opposition to him has assumed the proportion of persecution. It should stop. THE charges against Collector Wicker, of Key West, appear to have grown out of a local political fight, or rather are instigated by parties arrayed against Wicker

on account of local politics. Senator Jones (Fla.) seems to understand the situation and has had the matter held up. The time has passed when men can be fired out of official positions with the co lerity of the telegraph.

AN article in THE CRITIC Thursday evening did Sergeant-at-Arms Canaday an injustice. The discharge of the person referred to did not reflect on Mr. Canaday's good faith or break a promise made to the Senators named. The only promise made was a conditional one, and was so understood by all the parties interested. Mr. Canaday has carned and secured the good will and esteem of Senators of both parties, and there is nothing in the present case to disturb those relations. THE CRITIC is glad to make the correction.

THE new armory and theatre building of the Light Infantry should be exempted from taxation. The receipts from the theatre are necessary to meet the interest on the bonds and defray the legitimate expenses of the corps. Washington has rea-son to be proud of her militia, even in these piping times of peace, and there might come time when they would be "handy to have around." Everything possible should be done to encourage and strengthen the organizations. Exemption from taxation removes a burden from them without inflicting it on any one else. There should be no hesitation or quibbling about it.

The District Commissioners have received an analymous communication written on a sheet of House of Representatives paper which states that— "Considerable adverse criticism is made in

which states that—"Considerable adverse criticism is made in regard to the action of the Board of Commissioners recommending the exemption from taxation of armory buildings which are used for revenue, prominently that of the Light Infantry, who are to receive \$12,000 for a portion of their new building. Would not such an exemption be a grant way. exemption be a great wrong on the taxpayers and would it stand criticism ?"
